

IP Licensing Opportunity

Bed Slip

Inventor Objective: Seeking Licensee
IP Status: Patent Cooperation Treaty (PCT)
Development Stage: Working Prototype

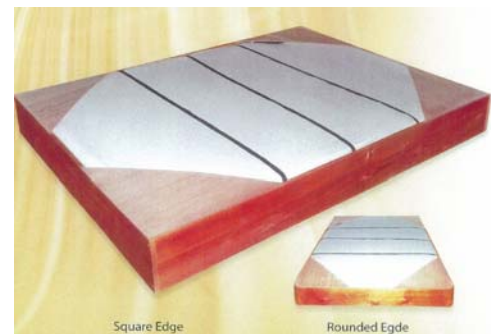

The Bed Slip is an innovative new bedding accessory, which fits to the base mattress of an ensemble/mattress set to provide the appearance of a solid bed base frame.

The accessory provides an alternative to fabric bed skirts/dust ruffles/valances/box spring covers and has been designed as a DIY bedding accessory, which can easily be fitted to ensembles/mattress sets of varying sizes.

The Bed Slip is able to be produced in a wide variety of materials and finishes including MDF, laminate, melamine or solid wood and polyurethane, paint or satin finishes.

The accessory offers a number of product benefits including:

- New alternative to conventional decorative base mattress covers;
- Flat pack/ready-to-assemble;
- Easy to install – DIY;
- Can be produced/adapted to suit a range of different bed sizes;
- Can be manufactured in a range of materials; and
- Once fitted, no need to lift top mattress and reposition or move (which is sometimes required with fabric bed skirts or the like).

The inventor is currently seeking potential licensees to deliver the Bed Slip to market. For further information, or to register your expression of interest please contact:
