Picnic Set

Inventor Objective: Seeking Licensee
IP Status: Provisional Patent Application AU2008904028
Development Stage: Concept CAD Drawings

The Picnic Set is an innovative new picnicware product used to conveniently house, transport, dispense and store plates, cutlery, napkins and a combined salt and pepper shaker.

The product is a new take on conventional picnic sets, offering added features and benefits courtesy of its unique, highly-compact design.

The Picnic Set takes up minimum space and can be used in the home or away - for barbeques, picnics, camping trips, caravanning, boating etc.

The product's novel design also allows the Picnic Set to be pulled apart for ease of cleaning.

The inventor is currently seeking potential licensees to deliver the Picnic Set to market. For further information, or to register your expression of interest please contact:
